

# Bard Model QLW

## Bard 1" Deep Q-TEC QC and QWS Standard Louver

**SUSTAINABLE EXTRUDED ALUMINUM**

**Dimensions are in inches**

### MODEL QLW

An attractive mechanical air louver with our exclusive shading "C" blade.

### DESCRIPTION:

QLW: This model offers the economical louver design of the 1" depth combined with the strength of our "C" blade for an attractive mechanical louver with shaded line-of-sight. Constructed of sustainable aluminum with 6063-T5 mill and baked enamel finish. The QLW will enhance design while assuring the Q-TECs performance ratings.

### Features Include:

- Bard's engineering lab design and testing assures the rated ventilation and efficiency performance of the Q-TEC product.
- Our exclusive "C" blade design offers strength and sight-shading for a clean appearance.
- The louver is flange framed and 1" deep with removable core.
- The "C" blade .040" extrusions coupled with mechanical bonding offer a louver that is stronger than most 1" louvers.
